Work Experiences

Development and Marketing Manager

Byte Trek Limited

August 2018 - July 2023

Byte Trek Ltd is a leading information technology company based in Bangladesh that provides information communication technology (ICT) solutions and services using ultra-modern technologies. Since 2018, it has provided timely business information solutions. Its capacities involve web & software development, digital marketing, IT supports, and a host of other ICT-related services.

Job Responsibilities:

- Ensuring a non-interruptive internet connection for smooth operations and optimizing data security measures to safeguard sensitive information.
- Planning, coordinating, and supervising the development process of multiple websites built with WordPress and Bootstrap.
- Managing and optimizing Google Ads, Facebook Ads, and Bing Ads campaigns for multiple companies, ensuring effective targeting and maximum return on investment.
- Conducting client meetings to gather detailed project requirements and effectively communicating them to the development team, ensuring a clear understanding of client expectations across various projects.
- Overseeing and providing guidance in the planning, coordination, and supervision of the overall development process, ensuring efficient resource allocation and timely project delivery.

Programming Skills

- Programming Language: C, C++, Java, HTML, CSS, Oracle PL/SQL, Python
- SEO/Marketing Related Knowledge: Lead Generation, Keyword Research, Competitor Analysis, Facebook Marketing, Google, Facebook & Bing Campaign Management, Google Tag Manager, Google Analytics
- Framework: Bootstrap, WordPress
- Embedded Platform: Arduino, ATmega32, Raspberry Pi
- Database: Oracle SQL
- GUI Toolkit: OpenGL
